

I want to air my displeasure with the FCC's permitting Sinclair to broadcast the "Stolen Honor" campaign propaganda on hundreds of national TV stations. This kind of unabridged, partisan programming is in direct violation with FCC rules on the impartiality of public air waves. You are in direct violation of your jobs as protectors of public property (i.e. broadcasting networks) if you allow such partisan programming to go unchecked and unbalanced by the opposing side. Shame on you for allowing Sinclair to use the public trust so unfairly.
